

OUR NEW WATER SUPPLY

A PUMPING PLANT ALREADY ORDERED.

The Honolulu Iron Works Get a Contract to Furnish a Pump and Engine for Makiki.

Minister King of the Interior Department and Superintendent Brown of the Water Works completed arrangements this morning for utilizing the water of the Government well at Makiki by connecting it with the regular mains. The boiler formerly in use at the electric light works in the rear of the Executive building is to be hauled to the well at once and set up, while arrangements were this morning entered into with Mr. Young of the Honolulu Iron Works by which he will supply an engine and pumping plant at a cost not exceeding \$4000. For this sum everything is to be put up in running order in less than six weeks' time. The expense of cleaning out the well was \$400, which included several lengths of new pipes. When the connection is made with this new well all of the residents of Waikiki and the plains will draw their water supply from this source, and all fear of future water famines will be at an end until the city is several times larger than it is now.

CIRCUIT COURT NOTES.

Hawaiian Juries Don't Go Much on Police Testimony.

The time of Judge Whiting and a native jury was occupied yesterday afternoon in the trial of Sam Kia, who appealed from District Magistrate Foster's decision, adjudging him guilty of owning *che-fa* tickets. This is the case in which the *che-fa* tickets were found under the steps of a house, the only testimony connecting them with the defendant being that of one of the police. A verdict of not guilty was rendered.

In Judge Whiting's court this morning the Hawaiian jury men were dismissed till 1:30 P. M.

In Judge Cooper's court the case of D. Kekona was on trial. This is another *che-fa* appeal from the District Court.

August Ahrens, guardian of the children of A. K. Hapai, has filed his account of receipts and expenditures for the past year as follows: Receipts, \$2697 27; expenditures, \$1169 50; balance on hand, \$1527 77, of which \$1000 has been invested in a six-per cent Government bond, \$467 77 in the Postoffice Savings Bank, and \$60 in the Spreckels Bank. Mrs. Hapai has also filed an account of the sum of \$648 12 left to her in trust for her six children and deposited in the Post office Savings Bank, as follows: William, \$125; Charles, \$100; Henry, \$148 88; Archibald, \$150 42; Amelia K., \$105 12; and Louisa, \$16 70.

The temporary injunction obtained by Walter C. Peacock against Samuel C. Allen and others has been dissolved by the consent of all parties concerned.

The following is a list of passengers booked to leave by the Australia, the list being revised up to noon to-day:

C. Wilder, H. A. Wilder, District Magistrate William Foster and three in the steerage.

The Daily "Bulletin" Falsehood.

Four compositors were discharged from the staff of the evening STAR this morning to cut down expenses. The prophecy lately uttered by that journal concerning the BULLETIN seems to be coming home to roost.—*Bulletin*.

The statement is false. The STAR employs no compositors but is printed at a job office. If four men were let out of that establishment others doubtless came to fill their places. At any rate our expenses are no less than formerly. It may be added that the STAR recalls no prophecy about the BULLETIN other than one which appeared in the *Advertiser*. It is not at all concerned as to whether its evening contemporary lives or dies.

Blight Specimens Wanted.

Commissioner Marsden complains that not a single specimen of blight has been brought to him for shipment abroad in response to his repeated requests. He has been out this morning collecting a number of specimens of different kinds of blight to send to Washington and California. Any specimens of new blight pests will be thankfully received by Mr. Marsden and forwarded abroad for careful examination.

Plants for Kauai.

The shipment of plants by the S. C. Allen noted yesterday were all of choice

California varieties, imported for Mr. Weir's place on Kauai. They were found to be absolutely free from blight of any kind, being submitted to microscopical tests by Commissioner Marsden, who does not anticipate any trouble with trees or plants from California, owing to the stringent State laws there, which even prohibit the passage of fruit, trees or plants from one county to another without examination.

IN THE POLICE COURT.

The Usual Collection of Drunks and Opium Fiends on Hand.

The first case before Judge Robertson this morning was that of Tai Young, Ah In, Ah ck, Ging Kam and Ah Piu, all charged with opium-smoking. At the request of Attorney Davidson, for the defense, the case was remanded till Monday, August 21st.

Ah Kwai pleaded guilty to having opium in his possession and was remanded for sentence till Tuesday, August 22d.

The cases of four drunks were next called, two of whom failed to respond and thereby forfeited \$6 bail each; the two others pleaded guilty, one being fined \$2 and the other \$5, with costs.

J. Dillon, charged with assisting a sailor to escape from a police officer, pleaded not guilty and was remanded till tomorrow. Ah Loy's case, on a charge of larceny, also went over until tomorrow.

Ah Tom, Cheong Tai and Ah Chow, charged with having opium in their possession, were tried, found not guilty and discharged.

Nearly a Centenarian.

Leonard Mitchell was at the police station this noon showing the boys how to swing a club like a cutlass and telling tales of the long ago. Leonard will celebrate his hundredth birthday next year if he lives, having been born in Boston of Negro parents in 1794. He wears his years as well as he does his immaculate white duck suit and flowered slippers. Way back, in 1820, Leonard was an American seaman on the U. S. S. Independent, and his red necktie shows that he still knows how to tie a sailor's knot.

A Curious Picture.

In a day or two the Pacific Hardware Company will have on exhibition a picture which at first glance looks like a steel engraving, but in reality it is made of woven silk. It represents a copy of Reubens' celebrated picture of Columbus first sighting America, the original having been copied by Ewald Feldman of Crefeld, Germany, the weaving being done by Julius List. The picture is a reproduction of one on exhibition at the World's Fair, and is designed to show the skill obtained by Crefeld workmen in the art of weaving.

Wants a Footrace.

Although the boys on the Boston can't play football a little bit, one of them is just spoiling for a footrace, and sends the STAR the following challenge:

U. S. S. BOSTON, HONOLULU, H. I., August 15, 1893.

I hereby challenge any man in Honolulu to a footrace of any distance from five to ten miles.

Time and money to be mutually agreed upon.

J. J. BARRY.

Farewell Party.

Mrs. S. G. Wilder gave a farewell party to the Misses Lita and Helen Wilder at "Eskbank" last night. A neat program of eighteen dances was arranged and refreshments were served at intervals. A large number of friends of the young ladies were present, including a delegation of officers from the Boston and Adams. The Misses Wilder leave on the Australia for a trip to Chicago.

By the City of Peking.

The following tourists who have been stopping over long enough to take in the beautiful scenery of the Hawaiian Islands will leave on the City of Peking: A. P. Hopper, who arrived here on the Rio Janeiro, and Col. W. H. Hallett, Rev. W. B. Power and Messrs E. W. Roper and P. McGregor, who came on the City of New York.

In one of the windows of the Pacific Hardware Company's store can be seen the largest pineapple of the season, if not the largest ever raised in the Islands. It weighs twelve and a half pounds and came from Messrs. Torbert and Simms' place at Pearl City.

A sportsmen's meeting, of which W. M. Giffard was president and A. L. T. Atkinson, secretary, was held yesterday, at which steps were taken to form a club for the enforcement of the game laws. There will be another meeting next Wednesday morning for organization.

FERGUSON'S LIBEL SUIT.

"GENIAL PAUL" ON THE WITNESS STAND.

Some Interesting Evidence About Guatemala, Japanese Immigrants and the Slave Trade.

The preliminary examination of Arthur Johnstone, editor of the *Advertiser*, on a charge of criminal libel, was commenced in the District Court this afternoon at 1:30 before Judge Robertson, Charles Creighton appearing for the prosecution and A. S. Hartwell for the defense.

The proceedings opened with the reading of the charge by Mr. Creighton. Mr. Hartwell then asked the prosecuting attorney which he intended to charge, making or publishing a libel. Mr. Creighton again read the charge to show that publishing alone was charged.

Paul Neumann was the first witness called. He testified: I am a subscriber to the *Advertiser*; it is a paper of general circulation in Honolulu. This is my copy, the one delivered to me at my office. Saw this paper on the day of its issue, Saturday, August 12th. I know Captain Ferguson. I am familiar with the Japanese immigration scheme to Guatemala. Have seen the article in the paper and read it. There is but one Captain Ferguson connected with the scheme of exporting Japanese. That is him sitting there. Have seen the contracts that are being signed by the Japs. That is a blank form of the kind used. All contracts that have been executed have been according to this form, signed by Ferguson as agent of the Guatemala Government and by the Japs. (Bank contract offered in evidence.) Am aware of the facts about the payment in gold. This appears in the contracts. They were to be paid \$10 in gold or the equivalent of \$10 in gold. Have read the clause about traffic in human flesh. I think that it means clearly enough that Captain Ferguson is driving a slave trade.

Cross examination—I have to draft the contracts. First made acquaintance of Captain Ferguson nine or ten years ago. I had no intention of making a difference between the third and the eleventh clause. My impression is that I put U. S. in the third clause. Have not examined the currency statutes of Guatemala. Have merely heard. I cannot say that in Guatemala paper money is not legal tender or the equal of gold. Silver is not the equal of gold there, but it may be paid. I know that we made specific contracts in California payable in gold and these were sustained in the Courts. Know that the United States Supreme Court decided that gold debts might be paid in paper. Mr. Goethe in San Francisco told me about the Guatemala statutes. Don't know of my own knowledge. My belief is that the Pacific Coast *Advertiser* is owned by a joint stock company and that it was so before coming into its present hands.

H. M. Whitney, sworn—Am connected with the *Advertiser* as manager and publisher and Arthur Johnstone is editor. The local part of the paper is under the supervision of Arthur Johnstone as editor-in-chief. The paper is owned by a joint stock company, or shareholders. Is incorporated as the Hawaiian *Gazette* Company, and does a general publication business. L. J. Levey, sworn—Know the *Advertiser*. Have been a subscriber to it for ten years. Get the paper delivered at my residence every day. Have seen S. T. Sunday's paper; know Captain Ferguson by sight, but am not acquainted with him. Don't know any other W. H. Ferguson.

Walter H. Ferguson—Am a temporary resident at Honolulu, arrived on June 13th. My occupation is that of General Agent of the Guatemalan Government. Left Guatemala last February. Have seen the article in the *Advertiser*, entitled "He has been there," saw it at Mr. Neumann's office. This is a contract drawn up to be filled with the names of myself, as Government agent of Immigration of Guatemala, and of the Japanese who desire to immigrate. I sign as Government agent of Immigration for Guatemala. Have made no other contracts but these. Paragraph 3 means gold coin or its equivalent, \$17 a month in Guatemalan currency. Both silver and paper in that country are guaranteed by Government National banks. I know this of my own knowledge, as I have made contracts and collected them in the United States.

I was only connected with the steamer Monserrat as Government agent of Guatemala to recruit labor in the South Seas. I supervised the recruiting and the transportation. Was not the recruiting officer. Arrived in Guatemala on September 14, 1892. I think. Have been there since. Visited all of the South Sea Islanders on the plantations. Saw them when I was alone. The statement about danger is not true, as I was with them in December and January. They are distributed among five plantations. Captain Davies of H. M. S. Royalist was in company with the Monserrat. He was also deputy commissioner of the Western Pacific. They were all well treated in Guatemala, and spoke to me in glowing terms of their treatment, and said their treatment was better than in Hawaii or Fiji. I had some who had been here. The plantations are thirty or forty miles inland. There are very few corrugated iron roofs on the plantations. The houses are nearly all thatched and built of wood. I never saw any lunas carrying revolvers, but a great many business men, tourists and travelers do. Never heard of or saw a

laborer shot down in Guatemala. There are no Chinese there, nor any Japs, except the first contingent I sent down. Have traveled from one end of Guatemala to the other, principally on the Pacific side. Have visited twenty plantations and seen coffee growing. The coffee belt is from 2500 to 4000 feet above sea level. The imported laborers have good floored houses. They don't make corrugated iron in Guatemala. Some plantations are 75 or 100 miles from the sea coast. No part of the expense of transportation falls on the laborer. I believe Guatemala has an exclusion law against Chinese. There are one or two Chinese stores in Guatemala city. It strikes me that the last clause in the article means that I was a slave dealer, selling human beings. Have recruited 149 Japs, wanted 150; intended to train these as lunas over others to come. Had conversation with Johnstone in *Advertiser* office on Saturday. Creighton was present. Went there to inquire for Antonio Cloya. Johnstone said he did not know where he lived, but would try to find out. Said he did not believe the article was true, but as the man said he had been there and signed it he put it in.

M. K. Keokakaloe identified the certificate of the *Gazette* Company filed in the Interior Office under the law.

Charles Creighton then took the stand and testified how he hunted for Cloya on Saturday until noon.

The prosecution then rested and General Hartwell for the defense moved to dismiss the charge on the ground that there was no evidence to show that the defendant was the publisher of the libel. The motion was argued and taken under advisement at 3:30 P. M. until Thursday morning.

FLOTSAM AND JETSAM.

HAWAIIAN BARK R. P. RITHET DEPARTS.

Steamer Claudine for Maui—Regular Tuesday Fleet—Steamer Mikahala Arrives.

The bark Velocity, now unloading at the old Custom House wharf, is hardly "a thing of beauty," being somewhat battered and decrepit from long service, nor is she "a joy forever"—to the Customs boys who have to watch night and day over the ten Chinese passengers who have no certificates for landing here. It is rather a difficult matter since these passengers mix with the crew and can hardly be distinguished. Amongst other cargo there is a lot of cypress firewood in bpdies in this vessel.

The American schooner Anna arrived at Kahului, 14 days from San Francisco, on Thursday last with about eighty tons of general merchandise.

The steamer Waialeale was put on the Marine Railway yesterday to be cleaned and have a general overhauling.
